

Video Loan Library Confined Space

Numbers beginning with "V" are available in VHS; Numbers beginning with "D" are available in DVD.
Numbers with an "*" behind them are available in DVD and VHS.

ID #	
V-1300-VA * (7 min. serious)	Confined Space Air Monitoring (Quiz included) Covers types of atmospheric hazards found in confined spaces, measuring procedures, and proper equipment use.
V-1300-VAS (16 min. serious)	Confined Space, Retraining - Spanish Reinforces the dangers of confined spaces. Reviews: Training requirements for authorized entrants, attendants, supervisors, and on-site rescue personnel; permit space identification; hazards and appropriate equipment; monitors; ventilation; and proper PPE.
V-1300-VB (6 min. serious)	Confined Space Hazards Defines what confined space is and hazards involved. Atmospheric and physical exposure, Lockout/Tagout and multiple fatalities are discussed.
V-1300-VC * (10 min. serious)	Entering Confined Spaces Gives guidelines on working safely in a confined space. Goes over rescue procedures used by attendants to prevent them from becoming victims.
V-1300-VD * (9 min. serious)	Confined Space Entry - The Final Regulation Covers hazards encountered in a confined space. Instruments/procedures used in past and present. Goes over OSHA and NIOSH standards for hazardous atmosphere. Permit and Non-Permit confined space is discussed and PPE.
V-1300-VE * (7 min. serious)	Trenching Safety Basic guidelines given and safety checklists shown to ensure a safe trenching job. PPE and danger signs on ground conditions discussed.
V-1300-VES * (14 min. serious)	Trenching & Shoring Safety Update - Spanish Covers the following: 1) Support systems - angle of repose and trench boxes 2) Stress factors - including weather, soil conditions, vibration/shock, early planning and testing 3) Shoring installation, inspection and removal 4) Oxygen deficiency and emergency evacuation.
V-1300-VF * (6 min. serious)	Trenching & Shoring Discusses shoring, sloping, sloping shield installation, sloping requirements and limits, and screw jacks versus aluminum hydraulic shooting.
V-1300-VG * (18 min. serious)	Trenching & Excavation Safety Live footage and computer graphics provide a clear explanation of the hazards created by digging trenches and excavations. Covers sloping, shielding, shoring and personal and work safety.
V-1300-VH * (24 min. serious)	Trenching Cave-In Response Designed for both on-site and rescue personnel, this video examines the basic considerations involved in cave-in emergencies.
V-1300-VI (19 min. serious)	Confined Spaces - Silent Killer Gives an overview of hazards for attendants. Covers basic atmospheric testing requirements; confined space terms and definitions; and roles and responsibilities of attendants.
V-1300-VIS * (19 min. serious)	Confined Spaces - Silent Killer - Spanish Spanish version of V-1300-VI
D-1300-DJ (DVD C) (9 min. serious)	Safety Matters: Confined Space Entry (Supplemental Material Included) It discusses the criteria, characteristics, and key industry statistics of confined spaces; covers the hazards of confined spaces, and how to detect and control them; outlines training, roles and responsibilities of members of the entry team, and emergency and rescue planning.
